

Diane McCrea

Why should WCVA's members should vote for me to be a trustee

I am Diane McCrea and am an experienced charity trustee and have been a non-executive director of many organisations in the public and private sector. I believe these experiences have given me the skills and knowledge to effectively contribute to the WCVA Trustee Board, particularly in charity governance and finance.

Currently I chair Cynnal Cymru – Sustain Wales, which is a member of the WCVA family, and I am passionate about promoting sustainable development. Our approach to this is to promote all aspects of sustainability social, economic, and environmental aspects: We focus on enabling action towards a fair and just society by advocating for the living wage and being the Wales accrediting body for this, promoting a low carbon economy and a thriving natural environment.

My professional experience had been in the public and charity sector where I was previously Chair of Natural Resources Wales, Consumer Council for Wales, and Shelter Cymru. I now have more time to devote to voluntary work and would love to be able to contribute by bringing my skills and experience to the WCVA Board of Trustees to enable all voluntary organisations in Wales to make a bigger difference together, and particularly to sustainability.
