### Round 10 Wales Africa Awardees

Organisation	Theme	Location	Project Description	Grant Awarded
Giakonda Solar Schools	Lifelong Learning	Zambia	The Learning to Learn Project will up-skill and provide mentorship for teachers in rural schools in Zambia with the overall goal of motivating, encouraging, and raising the long-term aspirations of pupils, especially girls. It is intended as a pilot project to be rolled out more extensively after refinement.	£7,500.00
Teams4U	Health	Uganda	The funding will be used to implement reliable access to piped water into	£200,000.00

			wards and laboratories across eight critical healthcare providers, strategically positioned to manage the COVID-19 crisis. In addition, funding will be used to support 10 schools deliver reproductive & menstrual health education.	
ResponsABLE assistance	Sustainable Livelihoods	Kenya	Supporting our Kenyan partner, The Kibwezi Disabled Peoples Organisation to further train and equip the three Fursa groups and their members. This to enable the groups of disabled people and their families to communicate and operate safely and more effectively, utilising solar power and available technology.	£14,400.00
HIV Lesotho/Penederyn Mission	Lifelong Learning	Lesotho	To develop and extend computing facilities and teachers for schools and village locations in rural Lesotho. Having repaired a disused secondary school science building as a computer classroom, training and mentoring will be delivered from this base to different school and community groups locally. Basotho pupils will be linked with Ysgol Godre'r Berwyn (Bala, Gwynedd) and local Young Farmers' Clubs.	£7,000.00
Swansea Bay Health Charity	Health	Liberia	To support training in neonatal resuscitation using the WHO approved	£14,790.00

			<p>“helping babies breathe” framework. To procure essential supplies and medication for a 6-bed newborn care space at the ELWA hospital. To mentor local hospital leaders in newborn care and recognition of neonatal sepsis.</p>	
Dolen Cymru Wales Lesotho Link	Lifelong Learning	Lesotho	<p>This project aims to improve young people’s ability to deal with the aftermath of COVID-19 and build resilience for any future crisis using practical learning tools to narrow learning gaps, psycho-social counselling and support to return or stay in education particularly at transition stages.</p>	£50,194.88
Blossom Africa	Sustainable Livelihoods	Uganda	<p>This project will strengthen six Village Savings and Loans (VSAL) groups in Bunambutye. Each group will receive training in business skills (all members) and carpentry and tailoring skills (small number of members). Each group will be provided with seed funding to be used as a revolving fund for the establishment of small businesses.</p>	£15,000
SaltPeter Trust	Health	Uganda	<p>This project will provide mass outreach clinics providing immediate care in deprived areas of Soroti Uganda followed by review clinics in the Soroti</p>	£15,000

			Baptist Medical Centre. It will maximise prior relationships with the community, and build on the lessons learned from previous clinics supported by Welsh Government.	
Mothers of Africa	Health	Zambia	In Zambia HIV-positive clients receiving antiretrovirals are regularly monitored, hence accessible beneficiaries of COVID-19 vaccination. We will provide improved COVID-19 care for HIV-positive clients, with interventions in two provinces: indigenous language health promotion; vaccine fridge hubs and cold chain; vaccination training for Healthcare Workers giving antiretrovirals and Long-COVID clinics	£190,013.95
Shine Cymru	Health	Nigeria	The project will benefit at least 250 babies, children and young people with spina bifida and hydrocephalus, and their families, in three regions of Nigeria (South-west; North-West and South-South) to improve their health and futures through improved continence care and management.	£14,526
Give me hope Africa Wales	Sustainable Livelihoods	Uganda	This project will support five Village Savings and Loan (VSAL) groups to receive training in financial literacy and business skills. Each group will be provided with a revolving fund and	£5,211

			twelve months mentoring to develop small scale business opportunities. This funding will also enable us to pay our Project Manager to oversee the project.	
WellMama	Sustainable Livelihoods	Zimbabwe	We plan on providing the mothers the materials, sewing equipment and supplies so that they can earn a living through making and selling their products. We also want to provide them with seeds and tools so that they can continue to develop their community gardens.	£10,000
Bees for Development	Lifelong Learning	Ghana	Our Buzz Club Project will educate a new generation of beekeepers and environmental champions. Teachers and children in basic schools learn how to take care of bees and earn cash by selling honey. Buzz Clubs in Ghana and Wales will be twinned to foster mutual learning and global citizenship.	£12,046
Teacher Aid	Lifelong Learning	Zambia	The funding will build and equip a library for the use of pupils, staff and the community at Nsoke Community School, in remote rural Zambia. A library will provide equitable access to information enabling the students to study, improve literacy, catch up on lost Covid-19 learning, research and self-learn.	£15,000

Swansea University	Sustainable Livelihoods	Liberia	To improve the lives and livelihoods of deep rural communities in Liberia, better access to local markets, health and educational facilities is essential. To allow motorcycle taxis to cross streams, the project – together with local communities – will build three so-called Da Vinci bridges, which are more environmentally sustainable.	£12,400.12
Betsi Quthing International Health Partnership	Health	Lesotho	The project is aimed at equipping key workers and community leaders with skills to identify people with mental distress and illness, to support them and their families and refer them accordingly. It is aimed at ensuring harmony and coordination of services which mentally ill people need	£66,063.00
Christian Aid	Sustainable Livelihoods Climate Change	Zimbabwe	The Women-Led Sustainable Livelihoods project will directly build the capacity of 10,500 women small holder farmers in Hwange District, Zimbabwe, who have been impacted economically by COVID-19. The project will strengthen their resilience and develop their livelihoods through adaptive and recovery strategies, while also increasing resilience to the impact of climate change. It will also support 10 existing cooperatives (1,000 women	£182,640.51

			farmers) to develop grassroots leadership to build their advocacy skills to increase their voice in decision making processes. The project will indirectly reach 40,000 household members. COVID-19 awareness and mitigation measures will also be promoted to reach these 40,000 household members.
