

Hayley Dunne

Why should WCVA members vote for me to be a trustee?

I have enjoyed a career in the voluntary sector for over 25 years, and volunteered in a variety of activities over that time, at a strategic and community level. What motivates me is seeing the impact that services delivered by third sector organisations have on people's lives. I would use this experience & skills to benefit the whole sector as a WCVA Trustee.

One of my personal core values is service, I find a sense of fulfilment in sharing skills, knowledge & experience with others in a way which benefits them and I enjoy contributing to and influencing society. My greatest pleasure is seeing others succeed, whether that's individuals or organisations.

As an experienced leader and strong communicator, with exceptional levels of emotional intelligence, I believe that I not only have relevant skills, knowledge & experience to support WCVA to achieve its vision and goals for 2022-2027 but also the passion to secure the vision for a future where voluntary organisations and volunteering thrive across Wales. I would draw on my strengths of perspective (being able to provide wise counsel to others), prudence (considering evidence) and honesty (presenting myself in a genuine and sincere way) to succeed in the role.
