

Kathryn Robson

Why should WCVA's members vote for me to be a Trustee?

I would be delighted if you would vote for me to be a Trustee at the WCVA. It has been my great pleasure to work with the WCVA for many years and sit on the Third Sector Partnership Council as the representative for Education.

With extensive experience in organisational and cultural change, I have the confidence and ability to effectively engage with a diverse range of stakeholders. I am wholly committed to equality, diversity and inclusion and have demonstrable outcomes to support this. With sound knowledge and experience of HR management, governance and managing large multi-functional teams I can hit the ground running. My work as Chief Executive at Adult Learning Wales is about opportunities and changing lives, and I do this through establishing positive relationships and delivering a rich and diverse curriculum offer to communities across Wales. I am an effective communicator and have sound knowledge of the political landscape and extensive experience of working with Welsh Government, and many partners across private, public and the voluntary sectors. If appointed, I would bring energy and commitment to the Board of Trustees to help deliver the WCVA's mission to be a catalyst for positive change.
