

Lisa Davies

Why Should WCVA members vote for me to be a Trustee?

My varied career has provided me with useful insight to think strategically and to see the bigger picture, looking beyond an individual opportunity.

I'm proactive and work collaboratively with others, to identify the needs of an organisation and its users, building strong, responsive relationships to achieve successful outcomes.

I'm data driven, looking for evidenced based decisions, encouraging others to continually improve, through research and evaluation.

As a Welsh speaker and mother of children in Welsh medium education, I advocate bilingualism and the importance of giving Welsh a voice in everything we do. I have first-hand experience of the work carried out by organisations such as the Urdd enabling children and young people to gain new experiences whilst using the language.

Due to the pandemic, I feel that I am only just getting started on helping the board develop its strategy and ensure its resilience for the future and would like to continue this journey. I believe I would be able to offer WVCA and its members a rounded, highly skilled and professional individual with a desire to learn more about the sector, champion your work and help achieve your goals.

I would appreciate your support to help make this happen.
