

Louise Shute

Why should WCVA's members vote for me to be a Trustee?

I am an experienced Membership and Programme manager who is passionate about bringing people together to influence, collaborate and innovate to meet the needs of communities whilst driving societal change. I have experience in the charity, housing, education, charity and health sectors. I build member offers based on insight and events that are engaging and commercially viable. I am experienced at programme and project management in social change that empower people and communities. I have led on business improvement and IT projects that consider the impact on people, technology and culture. I use service design principles and continually adapt services to meet member needs and future direction. As I trustee, I would ensure robust governance whilst bringing fresh ideas on how we deliver for members and adapt to overcome challenges whilst horizon scanning and building a better future for the sector.
