Why should WCVA's members vote for me to be a Trustee?

I currently hold a management position in the civil service, I volunteer on a local board. I will bring a varied skill set to the WCVA built up over far too many years. I have considerable experience in the risk arena. I am a senior data & risk professional with over 10 years of national and international experience together with a demonstrable record of successful achievement; proactively implementing change and influencing key stakeholders including senior managers together with all levels of employees within and outside of the organisations. I like to think that I am a good communicator with a commitment to excellence and business expansion. Experience of putting frameworks in place including policies and training. I hold a post graduate law qualification. I am one of the U.K.s most senior data protection professionals. I Managed a team of 11 consultants for the largest, health and safety consultancy in the UK, I have notable experience with business continuity and operational resilience capability along with emergency response plans. I am currently one of the U.K. governments senior data protection professionals. I am also an expert in occupational Health & Safety.
