

Wales and Africa Awards Round 1 2022-23

Organisation	Project Description	Grant request
APT for Social Development	The development and operating costs of two functioning Appropriate Paper-based	£14,232.00
	Technology workshops in rural Kenya which	
	construct bespoke postural support devices	
	from local low-cost materials. Therapists will	
	deliver training in the postural management	
	of children with severe disabilities and the	
	construction of appropriate devices to local	
	therapists and workshop staff.	
Interburns	The project will deliver a 5 day hands on	£25,000.00
	training for burn nurses in Tanzania and the	
	region to improve the quality of burn nursing	
	in secondary and tertiary hospitals. It will	
	develop the capacity of selected nurses from	
	the region for leadership and wider	
	dissemination of skills.	
Aberystwyth University	Critical capacity building to enable the	£16,125.10
	Zanzibar malaria elimination programme to	
	embed transformative drone and geospatial	
	technologies.	
Niokolo Network	Many children in Senegal do not have a birth	£9,980.00
	certificate which prevents them going to	
	school. This project will scale up an earlier	
	birth registration pilot in Senegal and	

	strengthen communication strategies in	
	Senegal and in Wales to ensure that learning	
	impacts are sustained and to enhance active	
	global citizenship.	
The Moses Project Charity	To provide an immediate response to the	£9,713.00
	challenge of COVID19: which has caused	
	economic decline resulting in falling pupil	
	numbers attending the two rural community	
	schools at Endonyiosidai Kenya. Short term	
	interventions of addressing water shortage	
	and facilitating health/ hygine education -	
	all for long term gain – and increased	
	attendees at school.	
	The project addresses more than one of the	
	interconnected themes!	
Cardiff University - School of	A team from Cardiff University will	£14,094.00
Optometry and Vision Sciences	collaborate with a team from the University	
	of Cape Coast (UCC) Ghana to train and	
	equip optometrists in glaucoma and trial a	
	low cost, simple and sustainable solution to	
	detect disease at an early stage (before	
	blindness) in rural and poor communities.	
ChallengeAid	The funding would be used to equip 6 centres	£19,200.00
	in Nairobi with laptops, projectors and	
	screens for Zoom lessons conducted by	

	volunteer teachers here in Wales. The	
	lessons are to aspirational students in	
	Nairobi and inset lessons for the teachers	
	working in our informal schools.	
ChomuzangariWomen's	We will support 60 women to gain	£25,000.00
Cooperative	sustainable livelihoods and address cliamte	
·	change issues through the expansion of an	
	existing nutrition garden. This will be	
	achieved through, land preparation,	
	construction of greenhouses and goat	
	houses, capacity building through workshops	
	and training.	
Disability in Wales and Africa	"Share Our Story" facilitates deaf and	£15,484.00
	disabled people from Wales and Africa to	
	discuss their experiences, ideas, and	
	expertise when pursuing disability inclusive	
	development. It will empower local deaf and	
	disabled people by providing greater	
	knowledge of possibilities and raise general	
	awareness by publicly sharing the stories.
