

Organisation name	50 word description	Grant request	Wales location	Theme
Theatr Clwyd Development Trust	Theatr Clwyd is embarking on a major capital refurbishment to safeguard one of Wales' most significant cultural assets for future generations. The project will deliver a greener and more accessible building for the community, with industry-leading environmental enhancements, including a green roof, to support community engagement initiatives focusing on sustainability.	£35,905.00	Flintshire	Wider Environmental Enhancement
Tabernacle Morryston Congregation CIO	Reconfiguration capital works to Tabernacle, converting it to a Community Resilience Hub, with high quality, accessible, flexible facilities for the community. People with mobility issues would then be able to access all activities in different rooms. The new layout would enable four or more simultaneous hires to take place.	£48,925.00	Swansea	Wider Environmental Enhancement

National Trust	Erddig Mindful Meadow will transform a currently overgrown and underused space into meadow with woodland, wildflowers, hedgerows and reflection areas for people and wildlife. The project will encourage open access and create a green space for community activities and an easy entry point for people to engage with nature	£34,200.00	Wrexham	Biodiversity
Partneriaeth Ogwen	Datblygu ein mannau gwyrdd i fod yn erddi cymunedol llesol i natur a phobl. Rheoli safle rhandiroedd a chynnal gweithgareddau i hybu sgiliau bioamrywiaeth a garddio natur. Gwella cysylltiadau i rannu sgiliau tyfu, lleihau gwastraff a milltiroedd bwyd, a chryfhau teimlad o berchnogaeth gan drigolion.	£42,200.00	Gwynedd	Wider Environmental Enhancement
Foothold Cymru	Pedal Power-Llanelli is a bicycle library, lending refurbished bikes salvaged from landfill. It also runs Fix-It Fairs, maintenance classes, and events championing waste as a valuable resource. The project aims to reduce carbon emissions, foster repair and reuse, improve wellbeing, and make cycling affordable for those on a low-income.	£49,997.90	Carmarthenshire	Waste Minimisation

Repair & Share (trading as Repair Cafe Wales)	We have 100 successful Welsh Repair Cafés; volunteers fix items, reducing landfill, maximising reuse, saving money, teaching repair skills, building community cohesion. We will reach 8 new, priority communities and bridge the intergenerational skills gap, creating at least 3 new Repair Cafés in post-16 learning environments and 2 in libraries.	£49,998.89	Conwy Cardiff Wrexham Merthyr Tydfil	Waste Minimisation
Newport Yemeni Community Association	NYCA will improve skills/understanding of the environment/sustainability, through the creation of a sustainable community-led garden/allotment, expanding existing NYCA Recyclers scheme to include a “loan library”, develop a weekly clothes swap/alteration group and create a repair cafe.	£49,464.00	Newport	Waste Minimisation
Cardiff Community Housing Association Ltd.	Prosiect NAWR aims to support social housing communities in Cardiff tackle waste and fly tipping issues as well as support the move towards segregated recycling collections. The project will identify challenges in each community and provide education and support to residents on how to reduce waste and increase recycling.	£49,963.00	Cardiff	Waste Minimisation

Wild Ground	The project will conserve woodlands in Connah's Quay, Flintshire. It will build on community engagement that has already taken place, engaging local people in conservation sessions and outdoor seasonal events designed to foster connection with nature. Outdoor education sessions will be offered to schools within walking distance of the woodlands.	£49,931.41	Flintshire	Wider Environmental Enhancement
Erlas Victorian Walled Garden	Erlas Victorian Walled Garden proposes to erect an educational Nature Den and employ a Garden Support Worker to educate community groups about the ecosystems which can be found in our unique Welsh Heritage Garden, and for gardening equipment to increase biodiversity and improve the green infrastructure on site.	£39,975.00	Wrexham	Wider Environmental Enhancement
Groundwork Wales	Volunteers from local community groups and schools will clean up sections of the Rhymney River in Caerphilly Borough, removing and recycling waste from the river and river banks, improving the health of the river and its catchment, and raising awareness of the impact of waste on river ecology.	£20,954.00	Caerphilly	Waste Minimisation

Llanelli Railway Goods Shed Trust	We want to deliver a program of activities engaging our community with biodiversity on a post-industrial site, offering quality volunteering opportunities for people to develop new skills and build their knowledge and empower people to take positive action to help improve biodiversity in our area.	£30,336.25	Carmarthenshire	Biodiversity
Cycling 4 All	The project will reduce waste and improve wellbeing through three main avenues: offering a donation-based 'bike swap' service for children who have outgrown their bikes, refurbishing unwanted bicycles for provision to families with a particular focus on low-income families, and holding 'learn to ride' and 'family cycling' sessions.	£44,027.51	Wrexham	Waste Minimisation
West Wales Rivers Trust	This project will bring together and upskill communities, providing people with the knowledge, confidence and enthusiasm to enable them to work together to form 'Adopt' groups on their nearest stretch of river, so that they are able to take care of and improve its health and biodiversity into the future.	£49,987.92	Carmarthenshire	Biodiversity

The Orchard Project	Working with the community in Swansea we will bring people together from different generations to volunteer and learn new skills while restoring and expanding a historic community orchard. This will turn into a wildlife orchard, rich in biodiversity by creating new habitats and planting more trees.	£39,402.50	Swansea	Biodiversity
