

Judith Stone

Why should WCVA members vote for me to be a trustee?

Following a recent move to the private sector, at heart, I am a charity professional with over 20 years' experience and a committed Chair of Kidney Wales. My belief in the third sector is informed not only by my career, but also as a result of my personal life being richer through involvement with voluntary organisations as a volunteer, trustee, beneficiary and supporter.

I believe I could bring to WCVA's Board:

- Passion and enthusiasm for the voluntary sector
- Values based approach – in openness and inclusion, equality, honesty, integrity, fairness and accountability
- A deep understanding of the issues that matter to you and an established voluntary sector network – from working for WCVA, as a volunteer and trustee.
- Relevant knowledge and skills – including governance, legislation, finance and risk management.
- Strategic perspective – I'm Managing Director of a company and Chair of a trustee Board, both with a strategic, rather than operational, remit.
- Time and motivation – My work is part time and I'm able to commit to being a trustee to support WCVA to continue to be a trusted advocate and guardian for the third sector in Wales.
