Landfill Disposals Tax Communities Scheme

---

# Landfill Disposals Tax Communities Scheme Round 13 awards

Organisation	50 word description	Theme	Wales location	Grant award
Bulldogs Boxing & Community Activities	The Bulldogs Outdoor Wellbeing Hub will transform unused outdoor space into a community garden, outdoor classroom and fitness area. The project will create accessible green space for learning, nature activities, food growing and wellbeing sessions, engaging local people in improving health, skills, biodiversity and community pride.	Wider environmental enhancement	Neath Port Talbot	£49,619.06
Coeden Fach Community Tree Nursery	Working with volunteers, groups and schools we will collect seeds from native species of broad leaf trees and grow these into saplings and also cultivate Welsh variety apple trees to create a supply of trees to enhance green spaces, add to biodiversity and support wildlife corridors across Swansea.	Biodiversity	Swansea	£49,991.00
Community Corners (North West) Ltd	Glanrafon is a beautiful, old Victorian school in the heart of Mold, Flintshire. The grant has enabled the completion of major building works, resulting in the building being able to open as a vibrant community centre, run by local people, for local people.	Wider environmental enhancement	Flintshire	£45,410.00
Deeside Community Trust	Our conservation project will bring together campus partners and the local community to improve our community green spaces through the delivery of weekly volunteering sessions, training courses, and community days.	Wider environmental enhancement	Flintshire	£49,779.02

Organisation	50 word description	Theme	Wales location	Grant award
Enfys Foundation	Enfys is launching a Community Repair project to repair items that would otherwise be wasted, which intersects with our Community Connect project aimed at reducing isolation and loneliness. It will bring people together through activities, train volunteers and students, and repair thousands of items to help low-income households.	Waste minimisation	Neath Port Talbot	£49,999.00
Family Friends	This project breathes new life into a neglected allotment, transforming it into a lush, welcoming green space. Families will explore biophilia-inspired sessions, digging, planting, and connecting with nature, while building wellbeing, resilience, and community bonds. Together, we'll create a thriving hub where learning, growth, and environmental stewardship flourish.	Wider environmental enhancement	Wrexham	£28,721.00
Friends of Pedal Power Project Ltd	Cycle Rescue & Reuse Hub will create a two-year volunteer-led cycle refurbishment programme, rescuing unwanted bikes from the waste stream, repairing them for reuse, and donating or selling them to support the community and Pedal Power's charitable aims. This reduces landfill, develops local skills, and establishes a sustainable circular-economy workshop.	Waste minimisation	Cardiff	£49,190.97

Organisation	50 word description	Theme	Wales location	Grant award
GISDA Cyfyngedig	AilGreu is a creative, community-led project by GISDA tackling textile waste in Gwynedd through repair, reuse, and creative engagement. Combining environmental education with hands-on activity, it promotes sustainability while supporting vulnerable and homeless young people to gain practical skills, confidence, and opportunities to engage positively with their community.	Waste minimisation	Gwynedd	£45,595.20
Hirwaun YMCA	Green Horizons, led by Hirwaun YMCA, will reduce waste and enhance biodiversity through community composting, food growing and repair workshops. Residents of all ages will learn to reuse, repair and grow sustainably, while young people become Green Champions, helping to create a greener, healthier and more connected community.	Waste minimisation	Rhondda Cynon Taff	£44,244.00
Hope St Mellons (Here for Good Collective)	Nôl i Natur is a community-led project expanding wildlife habitat, improving biodiversity and supporting local wellbeing by helping people get 'back to nature'. Building on our award-winning volunteer-led food growing, it will transform The Hive's green space into a richer, more resilient wildlife haven.	Biodiversity	Cardiff	£22,506.00

Organisation	50 word description	Theme	Wales location	Grant award
Llanidloes Energy Solutions	Growing Green is a grassroots project transforming public spaces in Llanidloes and nearby villages into thriving habitats. Local people will plant nectar-rich species to attract pollinators, reduce herbicide use, and boost biodiversity—turning car parks, verges, and roundabouts into vibrant, nature-friendly places for wildlife and the community alike.	Biodiversity	Powys	£18,072.00
North Wales Wildlife Trust	Echoes in the Kilns, in collaboration with local communities, will create interactive walks, events and interpretation materials, increasing awareness of the site’s natural and cultural heritage. Urgent repair works to a historic limekiln will safeguard and enhance important bat roosts, whilst also ensuring the preservation of nationally important industrial heritage.	Biodiversity	Wrexham	£49,999.00
The VC Gallery	This project will create a community seed bank and run weekly nature recovery sessions in Pembroke Dock. Participants will learn to save seed, plant for pollinators, improve small habitats and take practical environmental action, supporting biodiversity while building skills, wellbeing and community connection.	Biodiversity	Pembrokeshire	£19,006.00
