LPfN Coastal Capacity Building Fund Capital 2026/27 - Approved Awards			
LNP	**Project Name**	**Project Description**	**Funding Awarded**
Carmarthenshire	Native Oyster Spatting Pond — Laugharne	Establish Wales's first purpose-built native oyster spatting pond at Laugharne, creating biosecure spat production capacity for reef restoration and sustainable aquaculture supply across Wales.	£61,365.00
Ceredigion	Cardigan Bay Marine Monitoring & Coastal Resilience Hub	Deliver a scalable, community-led marine evidence hub, combining offshore monitoring, vessel-based citizen science and public engagement to strengthen ecological resilience, sustainable livelihoods and understanding of coastal pressures across Cardigan Bay. This approach translates complex environmental data into accessible, practical insights for local communities and decision-makers. The project establishes a long-term, reusable monitoring system with a clear 5-year legacy.	£73,200.00
Conwy	Conwy Seafood Trail	Develop a sustainable seafood trail to strengthen local supply chains, promote marine awareness, and support coastal communities through education, tourism, and collaboration.	£79,500.00
Flintshire	Connah's Quay Community Dock Development Project	New commercial mooring rings to improve safe access, reducing risk for all users. Interpretation to accompany improved mooring infrastructure and ladder plates. Installing benches to support positive interaction and engagement. Local Environmental Quality (LEQ) enhanced through community clean up events.	£32,262.00
Gwynedd	Clust i'r Môr (Listening to the Sea)	1. Deliver enhanced marine mammal monitoring in an underrepresented area 2. Engage local communities in conservation and awareness 3. Develop protocols for acoustic monitoring in high-energy coastal environments.	£75,141.00

Isle of Anglesey	Menai Strait Coastal Futures Programme	Community-led marine observatory and fisheries resilience programme using blue carbon science, circular economy infrastructure and coastal stewardship to strengthen environmental evidence, sustainable fisheries and long-term resilience across the Menai Strait.	£118,072.00
Isle of Anglesey	Harbour Improvements	Improving the safety and working conditions of Amlwch Harbour. The installation of new electrical infrastructure and a dock crane will support collaboration, shared harbour use and the long-term sustainability of the local fishing fleet.	£101,221.16
